Power listed is conducted peak envelope power. The antenna(s) used for this transmitter must be installed to provide a separation distance of at least 3 m from all persons and must not be co-located or operating in conjunction with any other antenna or transmitter. RF exposure compliance may need to be addressed at the time of licensing, as required by the responsible FCC Bureau(s), including antenna co-location requirements of 1.1307(b)(3). End users and installers must be provided with antenna installation instructions and transmitter operating conditions for satisfying RF exposure compliance.
